

## Supplementary Appendix

All genome sequences and associated metadata supporting the findings of this study can be accessed through the persistent digital object identifier

<https://doi.org/10.55876/gis8.260906ua>

In addition to the minted DOI, GISAID also communicates the aggregation of GISAID accession numbers (EPI\_ISL\_IDs) through the corresponding EPI\_SET\_260906ua identifier to facilitate both, the acknowledgment of all data contributors and the direct retrieval of the underlying data from GISAID used in this study.

### hCoV-19 Virus Data Summary

| <b>GISAID Identifier</b> | <b>Digital Object Identifier</b>                                                            | <b>Number of individual viruses</b> | <b>Data Collection range</b> | <b>Number of countries/territories</b> |
|--------------------------|---------------------------------------------------------------------------------------------|-------------------------------------|------------------------------|----------------------------------------|
| EPI_SET_260906ua         | <a href="https://doi.org/10.55876/gis8.260906ua">https://doi.org/10.55876/gis8.260906ua</a> | 10,845,376                          | 2020-01-01 to 2025-12-24     | 223                                    |
